If you worry too much about what has been and wonder too long about what is in front of you, then you will ignore and completely miss what you have NOW. Don't stress over the past it's gone, don't worry about the future, it hasn't happened yet. Just live each day in the here and now and work toward creating the future YOU WANT. Yesterday is history, Tomorrow is a mystery. But today is a gift, that's why they call it the present.
